How to Audit Logistics Service Providers

Live Online Training on 20 September 2022

Highlights

- Audit methodology for different transport modes
- How to audit
 - Road transport vendors
 - Forwarders on airfreight service
 - Forwarders on ocean freight service
- How to host and prepare for a Quality and Risk Management System and GDP audit

All participants will exclusively receive the following documents:

- Audit check list for air, road and ocean
- Regulatory requirements for transport of time and temperature sensitive pharmaceutical products

Objectives

In this Live Online Training you will learn

- How to conduct GDP audits of road transport vendors, forwarders on airfreight service and forwarders on ocean freight service
- How to host and prepare for a Quality and Risk Management System and GDP audit

Background

The EU GDP Guidelines highlight the need for appropriate controls for all partners and service providers in the distribution chain (like road transport vendors, forwarders on airfreight service and ocean freight service). Qualification of these partners, like for example with audits, is a core element to implement the GDP requirements.

Target Audience

This Live Online Training has been developed for logistics service providers and pharma manufacturers. It is directed at everybody involved in GDP audits.

Moderator

Dr Markus Funk
